June 2007

Dear friends,

Welcome to the first Rotary World Peace Symposium! I can think of no more fitting way to begin Rotary's 98th international convention than by discussing world peace.

To honor Paul Harris, the founder of Rotary International, and to recognize the 50th anniversary of his death, the Rotary Centers for International Studies were approved in 1997. The first class of 66 fellows was announced in 2002, and they began their studies the same year. Now, five years later, we are proud to have four classes of Rotary World Peace Fellow alumni — 232 graduates practicing conflict resolution and peace-building around the world.

In addition to this master's-level program, the Foundation also established the Rotary Peace and Conflict Studies program, a three-month course for mid- to upper-level professionals. The first class of participants began their studies in 2006 and, to date, 32 professionals from 18 countries have been involved in the program.

It is truly exciting to see the diverse group of professionals from both of these programs facilitating tolerance and cooperation among peoples. Their efforts generate the sensitivity and understanding that are already creating a more peaceful world.

We are fortunate to find ourselves in the company of the Rotarians who have been instrumental in creating and supporting these very important programs. Among them are those Rotarians who were part of the original Paul Harris Centers Committee established in 1997 by the Trustees of The Rotary Foundation. We are also

privileged to have with us the current Rotary Centers committee members. It is also a pleasure to welcome those Rotarians who have named and endowed fellowships that will secure the future of the Rotary Centers.

During the next few days, you will have opportunities to learn about the success and future of the Rotary Centers programs through panel discussions, presentations, and personal interaction with those involved. Thank you for your dedication to the programs. I look forward to your continued participation.

Yours in Rotary,

**Edem Patricia Effiong**

*17 March 1970 – 12 August 2006*

We remember Edem Effiong, Rotary World Peace Fellow, 2004-06. Shortly after arriving in Chapel Hill from her home country of Nigeria, Edem was diagnosed with a rare type of leukemia. Despite recurrent trips to the hospital and many medical obstacles, Edem completed her master's degree from the University of North Carolina's School of Public Health, in addition to making presentations and winning awards around the United States. With her family far away, her perseverance was championed through the help and kindness of her Rotary family and friends. Shortly after completing her degree, Edem lost her fight with leukemia. She will be missed both for her steadfast determination and her personal strength of character.
